

FOR IMMEDIATE RELEASE

TRIVINCI SYSTEMS RELEASES NEW RACE-KEEPER INSTANT VIDEO SYSTEM FOR MOTOR SPORTS, INCLUDING RACING AND DRIVING SCHOOLS

STERLING, VA, (MARCH 31, 2008) – Trivinci Systems announced today the release of its Race-Keeper Instant Video System, which captures high-resolution video and data directly to USB drives. Race-Keeper is an on-board video system and service that records and produces personalized videos for guests of racing and driving schools and corporate track day experiences.

After completing an outing, a driver can attach the USB drive to a PC and instantly play video and synchronized data using a personalized player that displays video and animated gauges, including speed, RPM, track map, vehicle position, Gs, lap number and lap time. Racing and driving schools with instructional focus can use the Race-Keeper Instant Video to provide instant feedback and instruction to drivers.

The Race-Keeper Instant Video System augments Trivinci System's standard Race-Keeper configuration, which delivers guest videos on DVD. For current Race-Keeper customers, the Race-Keeper Instant Video system gives operators an opportunity to provide a new product to guests who demand same-day delivery of their videos.

The Race-Keeper Instant Video system includes:

- Multi-camera on-board video data systems
- Product delivery via USB drive, with operator or sponsor printed branding
- Custom video player application that plays synchronized video and (optional) data
- Player application personalized with guest name and operator logos and sponsor content
- Simple on-track operational integration; videos initiated with auto-start + auto-stop features
- Easy-to-use guest registration process that can be integrated with operator guest databases
- Easy operational start-up; installation by Trivinci's experienced field operations team

The Race-Keeper Instant Video system is compatible with installed systems; no additional hardware is required.

Trivinci Systems, LLC designs and sells easy-to-use, on-board video data products and systems for motor sports and theme parks worldwide. Trivinci has deployed Race-Keeper across more than 50 motor sports venues in North America and Europe.

Trivinci customers include Audi Driving Experience, Audi Sportscar Experience, BMW Performance Driving School, Car and Driver/Road and Track LIVE!, Dodge, Fast Track High Performance Driving School, Executive Drive, Ford Racing High Performance Driving School, Jim Russell Racing School, Knockhill Racing Circuit, Land Rover UK, Mercedes-Benz, Mid-Ohio Driving School, Mondello Park Circuit, PalmerSport UK, Porsche Sport Driving School, Race-On Driving School, Richard Petty Driving Experience, SRT Track Experience, Stockcar Racing Experience, and Texas Driving Experience.
