Race-Keeper Video Data Systems

Race-Keeper combines the power of professional-grade video and data systems in one easy-to-use video data package. Coupled with Race-Keeper Comparo side-by-side analysis software, Race-Keeper is the most powerful, competitively priced driver development tool available to help racers analyze and improve their driving.

Race-Keeper video data systems have delivered on-board video and data to premier racing series and programs for the past four years across North America and Europe, including Formula Two, BMW Performance Driving Center, Porsche Sport Driving School, Audi Sportscar Experience, Richard Petty Driving Experience, SRT Track Experience, PalmerSport UK, Mondello Park Ireland, and many more. SCCA Selects Race-Keeper for 46th National Championships

Race-Keeper = Race Proven. The SCCA selected Race-Keeper as the exclusive on-board video data system at the 46th annual SCCA National Championships Runoffs at Road America from 09/22 through 09/27. Race-Keeper on-board systems delivered high-resolution video and data for the Speedcast web cast (www.speedcasttv.com). Race-Keeper systems were installed across many different vehicles - open-wheel, formula, sports racers - in highly competitive, high-vibration environments.

Race-Keeper captured two dozen of the most exciting races and Race-Keeper was on-board with five national champions and over a dozen top 10 finishes. [Click here for Race-Keeper race results.](#)

In one notable case, one of the drivers using Race-Keeper was disqualified by race stewards but presented Race-Keeper video to SCCA's Appeals Committee, which overturned the stewards' judgment

and restored the championship! [Click here to watch the video and judge for yourself!](#)

NASA Selects Race-Keeper for NASA Championships

NASA selected Race-Keeper as the exclusive on-board video data system to capture video at the 4th NASA Championships at Miller Motorsports Park from 09/10 through 09/13. Race-Keeper on-board systems delivered high-resolution video for the Speedcast web cast (speedcasttv.com). Race-Keeper captured over two dozen of the most exciting races and Race-Keeper was on-board with over a dozen top 10 finishes.

Race-Keeper 313MPH at Night?

Race-Keeper system was on-board Doug Foley's Top Fuel Drag Car last week... although we don't keep accurate records of how fast our customers go, we think it's pretty safe to say that Race-Keeper set a record on this particular drag car! [Click here to watch the video.](#)

Race-Keeper Drivers Compete at SCCA Solo Nationals!

Congrats to Race-Keeper sponsored drivers at the The 37th running of the Tire Rack SCCA Solo National Championships last month. There were over 1,200 drivers across four grueling days of autocross competition. Solo, SCCA's version of autocross, is a competition where drivers compete against the clock on a course laid out with pylons. There are two courses, and a driver's best aggregate time from both courses determines the winner. Drivers who move or knock over a pylon receive a two second penalty to their time for that run. The Solo National Championships are the culmination of the SCCA Solo season.

Our Race-Keeper sponsored drivers competed and performed well:

- Steve Hoelscher (Multi-time National Champion) – Toyota MR2 – Saint Augustine, FL (multi-time national champion) – Finished 4th in DP (rain halfway through day 2 affected

results)

- Mike King (Defending Champion) – Honda CRX – Jacksonville, FL – Finished 5th in STS (came down with the flu at the event)
- Alex Shchipkov – BMW 325 – Albany, NY – Finished 2nd in DSP
- Robert Lewis – Ford Mustang – Tallahassee, FL – Finished 4th in CP
- Tracy Lewis – Ford Mustang – Tallahassee, FL – Finished 4th in CP Ladies
