

Race-Keeper Named Official Video Data System of World Challenge

TOPEKA, Kan. (Feb. 9, 2010) - WC Vision announced today that Race-Keeper will be the Official Video Data System of the World Challenge® Championships in 2010.

As part of the agreement, Race-Keeper systems will provide data and video for the series' television broadcasts on Versus, the teams and series officials.

"We're excited to have Race-Keeper join World Challenge in such a unique fashion," WC Vision VP of Marketing and Communications Dave Drimmie said. "The series has previously utilized GPS data and in-car video systems, but never wrapped into one efficient package. We look forward to a great partnership with Race-Keeper."

Manufactured by Trivinci Systems, LLC, Race-Keeper is one of the world's most capable and trusted providers of video data loggers. Race-Keeper combines the power of professional-grade video and data systems in one easy-to-use video data package. Coupled with Race-Keeper Comparo side-by-side analysis software, Race-Keeper is the most powerful, competitively-priced driver development tool available to help racers analyze and improve their driving.

"We're very excited to partner with SCCA Pro Racing World Challenge, the premier road racing series in North America," Trivinci Systems President Jonathan "JB" Haller said. "Our Race-Keeper video data systems - which automatically synchronize high-resolution video from multiple cameras with data from multiple sources, including GPS, 3-axis accel, CAN/OBD-II and ECU - are perfect for World Challenge. Race-Keeper's high-res video will be a showcase for scrutineering, incident resolution and, of course, broadcast production. Our Race-Keeper Comparo software application, developed specifically for driver development, is an excellent tool to help teams improve their testing and racing."

Race-Keeper is designed and manufactured by Trivinci Systems, LLC, based in Virginia. Trivinci has delivered video data systems to premier racing series and programs for the past five years across North America and Europe. Race-Keeper is the exclusive video data system of Formula Two (EU), Porsche Sport Driving School USA, Formula Palmer Audi (UK), Porsche Germany, BMW Performance Center, PalmerSport (UK), Richard Petty Driving Experience, Audi Sportscar Experience and other premium racing series and experiences.

Sanctioned by SCCA Pro Racing, the 12-race 2010 World Challenge Championship begins March 26-28 with a doubleheader race weekend at the Honda Grand Prix of St. Petersburg. For more information, please visit www.world-challenge.com.
